 The possibilities are endless!

Assessment Opportunities
Ks4:
 Pupils at Ks4 are formatively assessed on a bi-weekly basis in the form of exam questions either in class or set for homework. Summative assessment takes place on a termly basis based on topics covered—This takes place alongside ongoing NEA assessment

Assessment Opportunities
Ks3:
 At Ks3 pupils complete a 9 week rotation in each specialism for Design and Technology. Formative assessment takes place in theoretical lessons in the form of 'Recall 3'. Pupils are assessed in a summative manner at the end of every rotation using the GCSE weighting of 50% project work and 50% theory taught over the rotation. They will also sit a formal exam at the end of the academic year. This provides teachers with a clear and fair assessment of how pupils are achieving.

A JOURNEY TO BEING EXCEPTIONAL
